PAUL M. SCHMIDT, D.D.S., P.C.

Patient Name: _____ Date: _____

Don't Wait Until It Hurts

Periodontal disease is painless. It affects 87% of the population, and often victims are unaware. There are warning signs, and the American Dental Association and our staff want you to be aware:

- | | | |
|---|---|--|
| Y | N | Do your gums bleed when you brush your teeth or toothpick between them? |
| Y | N | Are your gums red, swollen, or tender? |
| Y | N | Are your gums pulling away from your teeth? |
| Y | N | Do you see pus between your teeth and your gums when the gums are pressed? |
| Y | N | Are your permanent teeth loose or separating? |
| Y | N | Is there any change in the way your teeth fit together when you bite? |
| Y | N | Is there any change in the fit of your partial denture? |
| Y | N | Do you have bad breath? |

If the answer is yes to any of these questions, you owe it to yourself to bring it to the attention of your dentist or hygienist. Act now and keep your teeth for a lifetime.
